

NOTICE

DRONE OPERATIONS PROHIBITED AROUND US NAVAL VESSELS

FAA Notice to Air Missions (NOTAM) 3-6405: Defines the airspace within 3,000 feet laterally and 1,000 feet above any US Naval vessel as “National Defense Airspace” whether the vessel is underway or in port. All Unmanned Aerial Systems (UAS) are prohibited from flying within the defined airspace.

UAS Operators who do not comply may face the following enforcement actions:

- The United States Government may pursue criminal charges under 49 USC § 46307.
- The FAA may take administrative action including imposing civil penalties and revoking FAA certificates.
- The Department of Defense may take action resulting in the interference, disruption, seizure, damage or destruction of unmanned aircraft considered a threat to DoD assets.
